FRIDAY.....AUGUST 6, 1858.

The Result in Kentucky.

The returns come slowly in, but enough is known to fix the result of the election. Indeed, the question was settled before the election, and we only awaited the forms of law to make known the result. The people decided against Know-Nothingism in Kentucky two years ago, and they will never change their opinion from that decision. A clear, open, manly election, is in full keeping with the frank and generous-hearted people of our State, and they could not brook the idea of prescribing a large portion of the population of this Commonwealth, because of their birthplace or the faith that is in them. In this contest the Democratic party, through their State Convention, put forward their nominee for the office of Clerk of the Court of Appeals. The Know-Nothing party, through a State Convention, did the same thing; and with both candidates in the field, the issue was fairly made up. All question as to qualification was waived in the canvass, although we doubt not Mr. Revill was the better qualified of the two. He had been for years Clerk of the Owen County Circuit Court, and was a man of careful habits, and very attentive to business. He had been moulded, as it were, to the duties of the clerk, and was familiar with the whole routine. The people, however, have promoted him to the responsible office of Clerk of the Court of Appeals, because he was the representative of Democracy as contra-distinguished from Know-Nothingism. His opinion on Kansas matters had nothing to do with his qualifications for the office to which he has just been elected, and he is placed in position by the Democratic party over a Know-Nothing opponent, simply because he was the nominee—not of Leecompton Democrats—not of anti-Leecompton Democrats—but of a Democratic State Convention. The triumph of his election is a triumph over the Know-Nothing party.

So also in the canvass for a pell-mell Judge in this district. Hon. Z. Wheat was the nominee of the Know-Nothing Convention, and the Hon. Henry C. Wood was the choice of the Democratic Convention, which assembled at Lebanon on the 19th of May last. Questions as to the relative fitness of Messrs. Wheat and Wood were raised, but never discussed with any considerable effect. Both gentlemen were lawyers of excellent standing, and were regarded fully qualified for the position of Judge, or they never would have been the chosen nominees of their respective parties. A degree of personal popularity may influence the race; but, after all, although there should be no politics in a judicial election, as we know them, will be none upon the bench, it was because Mr. Wood received the votes of the Democratic party that he is now the chosen successor of Hon. Z. Wheat.

The result of the election clearly demonstrates that the people of Kentucky are tired of Sam. They have consigned him and the whole dark-lantern crew to oblivion; and as fast as the offices expire throughout the Commonwealth, they will pass into new hands—the hands of those who represent the equality of laws, and the equal rights of citizens under the American constitutions.

A Great Achievement.

The city was not a little startled, yesterday, to hear that the Atlantic Cable was successfully laid, and that the old and new world were holding a social confab over the wires. Communications were received and sent during the day. We have one advantage over our European neighbors. The difference of time is several hours in our favor. At the close of 'Change in London, at two o'clock, p.m., the news was being immediately sent, will reach us at one o'clock, p.m., of same day. So we may, some day, beat "Uncle John" outright in knowing his own business, and tell his transactions before he knows them himself, taking the time they were done as the guide to the knowledge of the fact.

The editor of the Journal, in replying to our article upon the disorders on the election day, attempts to refute the assertion that there was "violence, riot, and bloodshed, at several Wards in the city." He admits the shooting of a brave and true man. This is a little like bloodshed. We can add, that in this Ward four Irishmen were driven from the polls; two of them knocked or kicked down the steps. In the First Ward a number of citizens were beaten till they were covered with blood. White and others seem to have been guilty of violence in the Seventh and Eighth Wards. These are facts well known; and we cannot sufficiently express our disapprobation of the cool way the Journal has of asserting that "some foreigners were struck," as it being foreigners put them beneath the sympathies of the American people.

The nominees of our party who were not elected, have notwithstanding, every reason to be satisfied with the glorious canvass they made. They have reduced the majority in the city and county one thousand votes, and that is glory enough for one day.

We invited the Vice President, instead of making stamp speeches for his party, to undertake a column of writing on a subject of his own. "A Kentucky Lawyer" The Louisville Democrat earnestly entreats" him "not to risk his valuable reputation in this way." We are not disposed to question the exaltation of rights to Mr. Brackington's "valuable reputation," but we hope the inviolate character of

Louisville Journal.

Let our neighbor insist. A series of articles from the Vice President would be a vast improvement to the reading matter of the Journal.

The First Flash from Kansas.

We publish this morning the first intelligence from the election in Kansas. The returns are partial; but, doubtless, indicate the rejection of the Leecompton constitution.

The return of the election, generally, show that a majority of the minor offices in the State have been filled by Democrats—thus furnishing additional evidence that Sam is dead.

The editor of the Courier is reporting the pitiful trick of claiming the election of Revill as a triumph of Leecomptonism in Kentucky. The editor knows this is not so—that it had nothing to do in the contest. Revill's election is claimed by right-minded, honest people, as a triumph of Democracy over Know-Nothingism.

"Know-Nothing Hall" is deserted. An incurable malady, of some years' standing, has swept the inmates to the grave; and, save a few family pictures still hanging on the walls, there is nothing left to remind us that the temple was ever inhabited.

The Country is Safe.

The Atlantic Cable is laid down, and the Jain Clique is broken up.

Is Senator Douglas a Democrat? Washington Union.

"A Kentucky Lawyer" is surely not a practical shot, or he would not load his gun with so much wadding.

Officers Appointed to Compare the Polls Regarding their Authority—Returns from the Democratic Presidents Thrown Out on Alleged Infamy.

Our citizens will learn, with surprise, that the officers appointed to compare the polls have exceeded their authority, and undertaken to decide against the will of the people. No man, of any party, Whig, Democratic, or American, will hear, with any other feeling than indignation, that, notwithstanding a conceded majority to Mr. Batman, Mr. Thomas has been declared elected. These gentlemen who undertake to decide thus are, presumed to act under this section of the revised statutes : Page 284, Art. V, Sec. 1. The caption is,

COMPARING THE POLLS.

The pending Judge of the County Court, the Clerk, and the Sheriff, are to act for the Board at an election, shall constitute a Board for examining the returns, and shall give the result of election. Any two of them may constitute a Board; but, if either is a candidate, he shall have no voice in the election. The Board, when so constituted, cannot, in whole or in part, act in comprising the polls, their place shall be supplied by the two or three who may reside nearest the court-house.

The public will see that this is a board appointed to compare the polls. Under this law, clause, the Board, shall constitute a Board for examining the returns, and shall give the result of election. Any two of them may constitute a Board; but, if either is a candidate, he shall have no voice in the election. The Board, when so constituted, cannot, in whole or in part, act in comprising the polls, their place shall be supplied by the two or three who may reside nearest the court-house.

Yesterday a conductor arrived here with

about \$700,000, and the greater part of it was sent to your city per Nahum Stetson, and the remainder to New York. The conductor, and the horses, have been captured by Alarists, and Pancoo by Argullin. Gen. Moreno is on a wild goose chase in the Huasteca district, and we are now under the temporary command of Gen. Thomas Marin, of the Mexican Navy. Carvajal is at Tula, with a small force, though sufficiently large to cut out our communications with the interior. Our prospects are gloomy in the extreme.

The only thing in our favor is the privilege of communicating with the United States occasionally, the bar being still open, but we may in a very short period be deprived of that luxury; and as there are no vessels of war in these waters, the scenes of last March and April may be reenacted.

Yesterday a word, and wait

patiently to defend ourselves the best way we

can against all and every outrage, since foreign governments are not able or willing to afford the slightest protection to their subjects or citizens residing in Mexico.
